# Sunrise guide (purpose of this book)

## Objective of the book

How interesting it would be if children are introduced to the world of words through pictures. Pictures and their description make a lasting impression on the learning undertaken by a child. Through this book we are sincerely attempting to enrich the children's vocabulary by exposing them to colourful pictures which appeal to them, thereby speeding up their learning abilities.

## Subject

It has been observed that children are able to learn new things quickly if they are explained through the concepts with which they are used to. We give the idea of a garden to make the children get used to the tools that are used in a garden, the items seen there and the action words that are related to a garden through the help of pictures.

## Related Vocabulary

Garden- This concept has several aspects. The tools in a garden e.g. wheelbarrow, trowel, hoe, spade, pickaxe, watering can, sprayer and many others can best be explained to children with help of pictures whose names are given below. Through this method the children will surely be familiar with appearance of the tools and their use too.

## Action Words

Children find grammatical concepts and their clarification too dry. This can be overcome if such concepts are explained through a familiar term like a garden. This would be of interest to them. Action words like planting, digging, pushing, watering, climbing etc can be taught to them in a pictorial fashion. Pictures do say everything!

### Action Words

## Active vocabulary

It is a great idea to tell children about the many things a garden has i.e. frogs, squirrels, ants, flowers, butterflies, plants, trees, bees. These appeal to them as they are a part of a garden scene. Use such words for enriching their vocabulary.

## Verbal tasks

If children are familiar with some picture then they are very keen to say something on it e.g. speak short sentences about what in the picture appeals to them the most. A word of caution: please take up this task only after they have got used to all the new words.

# A amusement park

ferris wheel

balloon

swing

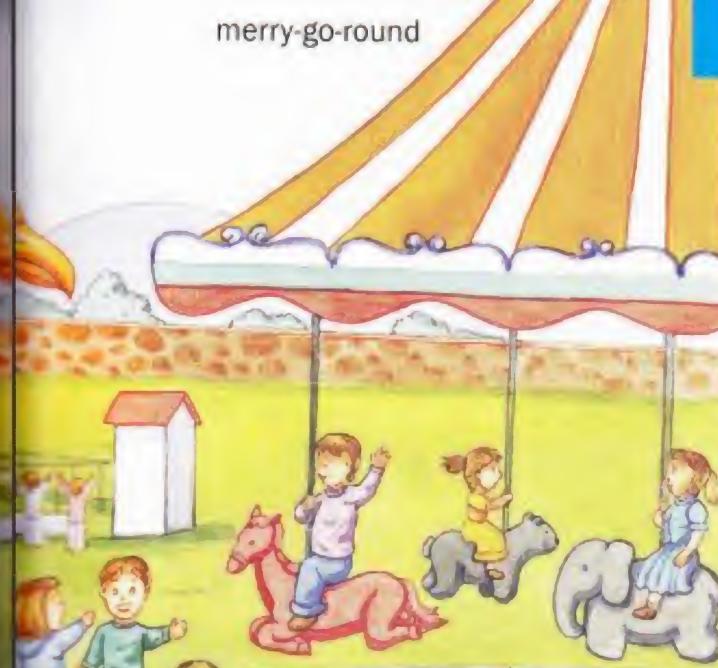

clown

hoop-la

trick cycle

merry-go-round

Action Words

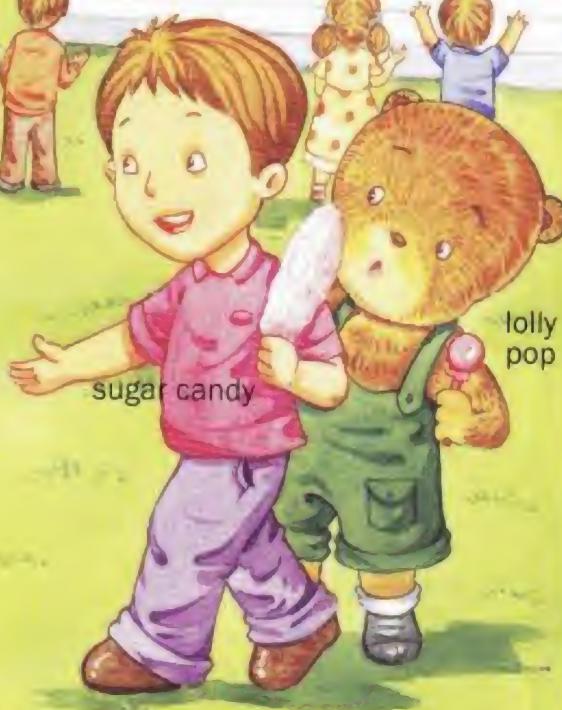

Tommy is pulling his tie to knot it.

Tommy loved to ride a pony on the meadows.
